Timeless design for your home

Welcome to the Stelton 2021 catalogue, showcasing our range of enchanting modern design classics. Stelton's pieces have a timeless quality and integrate perfectly into any home, enlivening your interiors with beautiful objects that combine form and function.

When stamping your mark on a space, it is all in the details. Ensure your interior stays unique with finishing touches such as contemporary vases, inviting tableware and serveware, and soft, embracing lights.

What all our products, whether new designs or iconic classics, have in common is their longevity, which comes from their pure lines, quality and attention to detail. Built on our close collaboration with international architects and designers, creative, clever design is Stelton's DNA.

Our ambition is to create interesting design that makes everyday life more beautiful and captures the hearts of design lovers.

A Stelton state of mind.

Ora

Set your creativity free with the Ora range. Place its various sculptural elements alone or in decorative combinations.

The matte exterior and glossy interiors combine to create a play of light and reflection, broken only by their characteristic steel edge.

Debiasi and Sandri founded their own design studio in 2010. Based in Bolzano and Verona they work within various fields of design, ranging from objects to spaces.

The Ora range includes bowls and candleholders of different shapes that offer endless combination possibilities to create the exact atmosphere you want.

The curved shape of the tree-armed candleholder makes it possible to continuously change the look just by turning it in different ways.

Playing with the contrasts between materials, soft organic shapes and a natural colour palette, the Ora range creates a synergy, resulting in enchanting, minimalist elegance.

The Ora tealight holder is made of coloured glass in the same shape as the Ora bowls. The Ora candleholders are available in polished stainless steel and in solid beech and can be used for both tealights and dinner candles.

Amphora

Amphora is inspired by ancient Greek clay pots in both name and form. At the same time, with its round body and distinctive shoulders, the Amphora design reaches far into the future.

Sebastian Holmbäck works with product design in the areas of furniture, lighting and interior design, and he has received numerous awards.

Amphora is a classic vacuum jug with a glass insert that will keep coffee or tea hot for hours. The glass insert can be replaced in case of breakage. This provides the vacuum jug with a longer lifespan, making it both money saving and better for the environment.

Set the table and have guests for tea or coffee. Our Amphora jugs come in two versions, one for tea and a slightly taller and slimmer one for coffee.

The idiom of Amphora is underscored by the composition of colours and the shiny and matt surface of the materials.

CLASSIC

Pilastro

The new Pilastro range has a sophisticated aura inspired by the elegant idiom of Art Deco, a merging of form and function.

Canadian designer Francis Cayouette was trained in Montreal and Paris, and founded Unit 10 design in Copenhagen in 1999.

With a chilled glass of white wine and a salad beautifully composed in a glass bowl, an everyday meal becomes a festive treat. The Pilastro series consists of a wine cooler, drinking glasses and serving bowls that suit any home and complement any dinnerware.

To Go Click

Design that makes a difference.
Save resources by bringing your own cup.

To Go Click cups have a state-of-the-art lid which you can open and close with one hand. Choose the colour that makes you happy every day. Find them all on stelton.com.

To Go Click is perfect for life on the move: enjoy your favourite drink anywhere and make any moment special.

To Go Click 0.2 l keeps your drink hot for two hours, or chilled for 4 hours. To Go Click 0.4 l has a vacuum-insulated double wall which keeps your drink hot for 4 hours, or cold for 8 hours.

Keep Cool

Keep moving.

Keep Cool is a vacuum insulated stainless steel bottle that stands out and underlines your style. The prize-winning double-walled bottle holds 0.6 litres and keeps your drinks chilled for 16 hours and warm for 8 hours. Enjoy!

Always bring your favourite drink in this light stainless steel flask, and you will never need to buy single-use bottles again!

EM77

Made in Denmark since 1977, the iconic EM77 vacuum jug, still looks good on any table, elegantly complementing your tableware. This season's palette features bright colours inspired by nature and wild flowers.

Made in
Denmark

The vacuum jug's innovative tilting lid enables serving with just one hand. The jug is also delivered with a handy screw cap, which is ideal, if you want to bring the jug outdoors.

EM77 is a classic vacuum jug with a glass insert. All parts can be replaced in case of breakage. This provides the vacuum jug with a longer lifespan, making it both money saving and better for the environment.

Erik Magnussen has created many timeless designs for Stelton, including the popular EM77 vacuum jug, the spine of the brand. This iconic design merges perfect form with perfect functionality.

A perfect match

Keep your bread deliciously fresh in this original bread bag as you relish a long breakfast or lunch. Enjoy distinguished design and a harmonious look in your kitchen and on your table.

Klaus Rath trained as an industrial designer at the School of Architecture in Århus, Denmark. He has designed the bread bag and other award-winning products for Stelton.

EM ship's lamps

A design classic.

Enjoy the lamps by Erik Magnussen during the long summer, then take them inside when winter comes. Their discreet design means they will fit wherever you place them, year after year.

Original

The Original watering can is a pleasure for both your plants and your eyes. It is an elegant sculpture when not in use, with a beautiful shape and perfectly crafted details. To keep and cherish forever.

Peter Holmblad is a key figure in Stelton's history. Between 1963 and 2004, he transformed Stelton from a production company into a respected design brand. He is also a skilled designer who created the well-known Original watering can and the Original series of breakfast table and bar utensils.

Glacier

Enjoy ice cold water from the Glacier carafe. The simple, rigid idiom is interrupted by the sophisticated structure of the bottom, which refers to Nordic winters and ice crystals. The new Glacier range consists of a carafe topped with a glass and matching drinking glasses.

Peter Svarrer has had his own glass studio for almost 20 years and has taught at Danish design and arts schools. Also associated with Holmegaard, he has won several prizes and grants for his glass designs. Nordic design tradition and the elegant shapes of nature are constant sources of inspiration for his designs.

Cylinda-line

If you appreciate design history and lifelong elegance, Cylinda-line is a series of timeless objects to keep and cherish.

Whether you prefer your drinks shaken or stirred, the classic barware series by Arne Jacobsen is a perfect tool. Thrill your guests with your creations.

Arne Jacobsen designed Cylinda-line in 1967 as a complete collection in perfect harmony. His work was inspired by the Bauhaus movement and he played an important role in Danish modernism. He was a master of details and his persistence in the development process resulted in a unique set of tableware and barware.

FOSTER

The Norman Foster collection

Enjoy the refined design and organic shape of these new vacuum jugs by British architect Norman Foster.

The Norman Foster vacuum jugs come with a glass insert that will keep coffee or tea hot for hours. The glass insert can be replaced in case of breakage. This provides the vacuum jug with a longer lifespan, making it both money saving and better for the environment.

Alongside porcelain accessories and cups, these new objects will make your table a daily pleasure to the eye.

The new salt and pepper mills add to the collection while embodying a shared language.

Norman Foster is Executive Chairman and Founder of Foster + Partners. His designs for the new Stelton range bring together simple sculptural form and soft geometry to create exceptionally crafted tableware for a wide range of settings.

Sixtus

Elegant tools for grill experts. Sixtus is the perfect set for preparing and serving grilled vegetables and meat, bringing together grill utensils and a large cutting board. Sixtus will satisfy any grill enthusiast. Its sleek, classic design will be a pleasure to the eye at any table, whenever and wherever it is used.

Søren Refsgaard graduated from Design Seminariet in Højer, Denmark, in 2003. Later the same year, he established his own design studio in Copenhagen. His work, is deeply influenced by the Danish design tradition.

CLASSIC

Pleat

Season your
food with style.

Inspired by the simplicity and visual strength of cylindrical geometries, designers Böttcher & Kayser have created a modern interpretation of the classic salt jar and pepper mill, dressed in matt black and white. The fine ridges also offer a unique, highly decorative element which will complement your dinnerware.

Böttcher & Kayser work out of their Berlin-based studio, founded in 2007. Childhood friends, these designers have realised their dream of working together, resulting in numerous prize-winning projects.

Hoop

The Hoop collection's classic design adds sophistication to your home.

Your salad will be beautifully presented in the large Hoop bowl, with the wooden salad servers underlining the style perfectly.

Use it every day, or when family and friends come for dinner.

UNIT 10 is a Scandinavian design consultancy. Founded in 1999 by Anne Marie Raaschou-Nielsen and Francis Cayouette, their studio lies in the centre of Copenhagen. The duo's interest in emotional and functional design translates into a range of furniture, interiors, and other products.

Elton

Switch on a new design classic – the Elton LED lamp. The Elton's pleasant light embraces you, both indoors and outdoors.

The Elton lamp is wireless and has three different light intensities according to your need.

Rasmus Halfdan Breck graduated in furniture design from The Danish Design School in Copenhagen in 1992. He runs his own design studio RHBDESIGN, where he works with product and industrial design.

Hurricane

Enjoy those summer nights.
Create a special ambiance
outdoors or indoors with
these beautiful Hurricanes.

Maria Berntsen has worked as an industrial designer since 1992 in her own studio in Copenhagen. She has an intuitive feeling for the nature of the material and the sensuousness of the form.

DANISH MODERN 2.0

Emma

Treat yourself, your friends and family
to breakfast or brunch with Emma.

HolmbäckNordentoft are the designers behind this harmonious combination of warm wood, porcelain, and lacquered steel with an informal mix of colours. Sebastian Holmbäck and Ulrik Nordentoft studied at the Danish Design School. They went on to design the Emma series together. A shared commitment to aesthetics forms the basis of all their work.

Introduce that Scandinavian hygge (cozy) atmosphere into your home with these Emma jugs and tableware.

Mix and match with new and old favourites. With a range of tone-in-tone colours, you can express your personal style.

Theo

Take your time. Enjoy a moment of calm with your favourite tea or coffee.

Canadian designer Francis Cayouette was trained in Montreal and Paris, and founded Unit 10 design in Copenhagen in 1999.

Let the Theo collection stimulate your senses. Combining matt stoneware with glaze and bamboo details, the Theo range's natural look will bring Scandinavian simplicity and elegance to your home.

Collar

Created especially for
all coffee aficionados.

The classic Italian stovetop espresso maker, also known as a “moka pot”, is the ultimate tool for making a professional, full-bodied brew at home. The Collar collection has a beautiful silhouette with a touch of Scandinavian design aesthetics.

Debiasi and Sandri founded their own design studio in 2010. Based in Bolzano and Verona they work within various fields of design, ranging from objects to spaces.

Embrace

Playful and curved
with an edge.

The Embrace tray can be used for fruit or, by using its practical bread bag, for bread. The classic, organic form of the stainless steel tray gives it an elegant look and provides a decorative touch to any table.

Christina Halskov and Hanne Dalsgaard founded their design studio Halskov & Dalsgaard Design in 1990. They design beautiful products that are not only functional but also improve everyday life.

NORDIC

Stockholm

Let the natural tones of the Stockholm collection add a distinctive finish to your home decoration.

Bernadotte & Kylberg established their design agency in 2012. Their collections reflect the scenery and the colours of the nature they cherish, which can be both tranquil and dramatic.

The eloquent graphics and soft organic shapes of the Stockholm bowls and vases are inspired by the ever changing scenery of the Baltic Sea and Stockholm Archipelago.

NORSTAAL

Stelton's Norstaal is a range of steel cutlery for the dining table. Sophisticated cutlery and serving utensils make the dining experience even more elegant and pleasurable.

Maya is an outstanding range of cutlery designed by Norwegian designer Tias Eckhoff and it comes in two versions. Maya dates back to 1962.

Pingo

A good grip
for small hands.

Una Pingo cutlery is easy for small hands to handle. And the Pingo plate, bowl and cup have just the right size and edges that help children as they are learning table manners. The discreet grey-scale colours make the set easy to integrate beautifully with any table. Una Pingo is designed by Tias Eckhoff and Pingo tableware is designed by Francis Cayouette.

History of the brand

Stelton is a Danish design company which has been a significant force within interior design since its establishment in 1960. We wish to continue the Scandinavian design heritage. Not by dwelling in history and tradition for the sake of it, but by using it as a source of inspiration and by refining and developing its unique strengths and ideals in collaboration with international architects and designers.

1977

The EM77 vacuum jug by Erik Magnussen is launched.

2007

The Norwegian cutlery company Norstaal is bought.

1960

Stelton is founded.

1967

Cylinda-line by Arne Jacobsen is launched.

2013

The successful Emma and To Go Click collections are launched.

2015

The Scandinavian design collections Stockholm and Theo are launched.

2016

The Collar collection designed by the Italian design duo Daniel Debiassi and Federico Sandri is launched.

2018

Stelton collaborates with Lord Norman Foster and launches the Foster collection.

2020

Stelton celebrates 60 years of design and relaunches the Original flower watering can.

2021

Stelton launches the Amphora vacuum jugs.

Design families

All Stelton designs are true to our minimalist Scandinavian design philosophy. We live and believe in 'less is more'. This design philosophy is based on four keywords: timelessness, simplicity, functionality and innovation. This catalogue explores our design families, allowing you to learn about the detail which makes each family special.

CYLINDA-LINE and the AJ collection by Arne Jacobsen is the heart of Stelton's design DNA. Cylindrical design has become a timeless classic. Iconic and minimalistic.

FOSTER The range brings together simple sculptural form with a soft geometry, to create exceptionally crafted tableware for a wide range of settings.

EXPLORE brings an organic touch to the minimalist design style. Playful and curved with an edge.

CLASSIC features designs inspired by the cylindrical shape like the EM77 vacuum jug by Erik Magnussen. Elegant and always functional.

I:CONS features innovative personal accessories for life on the go. Aesthetic and functional.

NORSTAAL includes steel cutlery and serving utensils. Sleek and elegant.

NORDIC is inspired by the Nordic landscape and design values. It represents the Scandinavian way of living with a 'less is more' attitude. Minimalistic and artistic.

DANISH MODERN 2.0 is inspired by the golden age of Danish design in the 50's and 60's. Every item is a new interpretation of this iconic era. Innovative with clean lines.
