#### **SOBRE A RIVA.** *ABOUT RIVA.*

Criada na Serra Gaúcha, a Riva conquistou o mundo e se tornou referência internacional em design de luxo e em objetos de aço inox, prata e ouro. Além dos desenhos do Studio Riva, um laboratório de criação, a Riva desenvolve parcerias com consagrados nomes da arquitetura, artes plásticas e jovens talentos do design nacional e internacional.

*Founded in Southern of Brazil, Riva conquered the world and has become an international reference in luxury design in stainless steel, silver and gold objects. In addition to the designs of Studio Riva, the in-house creative laboratory, Riva develops partnership from established names in architecture and plastic arts to the young talents of the national and international design.*

### MATÉRIA PRIMA. RAW MATERIAL.

A matéria-prima base da Riva é o aço inox 18/10. Esse número é o selo de qualidade das peças da Riva, e fazem referência à composição do metal: 18% de cromo e de aproximadamente 10% de níquel. O oxigênio, ao se combinar com o cromo forma uma fina camada de óxido de cromo em sua superfície, que concede ao aço inox uma elevada resistência à corrosão. Por isso, quanto melhor for o polimento de uma peça, mas em contato sua superfície estará com o ar e conseqüentemente, mais resistente à oxidação.

*The raw material base of Riva is the stainless steel 18/10. This number is the quality seal of Riva objects, and refers to the metal composition: 18% chromium and approximately 10% nickel. The oxygen, when combined with chromium forms a thin chromium oxide layer on its surface, which gives the stainless steel a high resistance to corrosion. Therefore, the better the polishing of a workpiece the more its surface is in contact with air and consequently more resistant to oxidation.*

### **AÇO INOX.** STAINLESS STEEL - 18/10.

Um acabamento altamente sofisticado e de excelente resistência à corrosão, sua superfície lisa, uniforme e espelhada oferece um brilho extraordinário. De fácil manutenção, os objetos Riva em aço inox são modernos e de forte apelo visual.

*A highly sophisticated finish and excellent resistance to corrosion, its smooth, uniform and mirrored surface offers an extraordinary shine. Easy to maintain, Riva stainless steel objects are modern and have a strong visual appeal.*

### **PRATA.** SILVER.

A linha prata da Riva segue os mais rigorosos padrões de qualidade exigidos nos principais mercados internacionais como Emirados Árabes Unidos, Canadá, USA e Japão. Cada peça recebe 20 microns de níquel antes de receber a camada com 12 microns de prata.

*Riva's silver collection follows the strictest quality standards required in the main international markets such as the United Arab Emirates, Canada, USA and Japan. Each piece receives 20 microns of nickel before being layered with 12 microns of silver.*

### **PRATA FROZEN.** FROZEN SILVER.

Os objetos com o acabamento exclusivo prata frozen, passam por um processo especial desenvolvido pela Riva para ganhar um incrível toque aveludado. Em seguida, as peças são tradicionalmente prateadas, recebendo os 3 banhos que dão o aspecto final e a qualidade impecável característica da marca.

*The objects with the unique frozen silver finish, go through a special process developed by Riva to gain the amazing velvety touch, then the pieces are traditionally silver, receiving 3 baths which give the final aspect and the impeccable quality characteristic of the brand.*

RIVA . 24K GOLD

### **OURO 24K.** 24K GOLD.

Símbolo de pureza, realeza e exclusividade, o termo "24 quilates" é uma medida convencional para categorizar o ouro mais puro existente. É nas próprias oficinas da Riva que os objetos são banhados a ouro, o que torna possível a atenção e o cuidado especial dos artesãos em cada peça que recebe o acabamento.

*Symbol of purity, royalty and exclusivity the "24 carat" is a measure agreed to categorize the most pure gold existing. It is in Riva workshops that the objects are gold plated, which makes possible the special attention of craftsmen for each piece that receives the finish.*

### **OURO FROZEN.** FROZEN GOLD.

O ouro frozen é produzido através de um método exclusivo concebido na fábrica da Riva, que transforma a superfície de forma única e com toque aveludado. Em seguida, as peças são tradicionalmente banhadas à ouro, que resulta em um acabamento contemporâneo e luxuoso ao mesmo tempo.

*The frozen gold finish is produced using an exclusive method at the Riva factory, which transforms the surface in a unique way with a velvety touch. Then, the pieces are traditionally gold plated, which results in a contemporary and luxurious finish.*

### **NÍQUEL BLACK.** NICKEL BLACK.

É um revestimento de níquel preto, aplicado sobre o aço inoxidável, especialmente desenvolvido pela Riva para dar um toque de elegância às peças já conceituadas pelo seu design e qualidade. Os objetos revestidos com o níquel black possuem uma camada resistente à corrosão em um período de até 2 anos.

*It is a black nickel coating, applied on stainless steel, specially developed by Riva to give a touch of elegance to the pieces already renowned for its design and quality. The objects coated with nickel black have a corrosion resistant layer in a period of up to 2 years.*

**NANO PELÍCULA DE PROTEÇÃO.**  
NANO PROTECTION FILM.

Os objetos Riva com acabamento em nickel black, prata e ouro 24K recebem uma camada protetora que os tornam resistentes ao escurecimento e oxidação. Com essa película de proteção nanotecnológica os objetos devem ser limpos apenas com pano macio e álcool. Além disso, se tornam repelentes a água, pois essa camada protetora é biologicamente segura, inerte a pele e hipoalérgica, tornando-se segura para o uso com alimentos.

*Riva objects finished in black nickel, silver and 24K gold receive a protective layer that makes them resistant to browning and oxidation. With this nanotechnological protection film, objects should be cleaned only with a soft cloth and alcohol. In addition, they become water-repellent, as this protective layer is biologically safe, inert to the skin and hypoallergenic, making it safe for use with food.*

**PEDRAS BRASILEIRAS.**  
BRAZILIAN STONES.

A coleção Pedras Brasileiras explora os objetos com estilo contemporâneo, que se destacam pelo contraste do aço inox com a delicadeza das pedras ametista, quartzo e pirita. Nos Porta-Incensos e Caixas Riviera, tanto como nas Jarras, Réchauds Banho Maria e Food Containers da coleção as pedras dão um toque de elegância nos objetos.

The brazilian rocks explores objects with contemporary style, highlighted by the contrast of stainless steel with the delicacy of amethyst, quartz and pyrite stones. In the Incense Dispensers and Riviera Boxes, as well as in the Jars, Double Boiler Rechauds and Food Containers of the collection, the stones add a touch of elegance to the objects.

**VIDRO. GLASS.**

A Riva usa vidros da mais fina qualidade, vindos da Itália, onde se produz o vidro tradicionalmente há mais de 700 anos. As pequenas imperfeições e bolhas que podem aparecer no vidro não são defeitos, e sim nuances únicas que indicam o processo artesanal do sopro do vidro. Todos os vidros estão livres de chumbo, respeitando o meio ambiente.

*Riva uses the finest quality glass, produced in Italy, which produces glass traditionally for over 700 years. Small imperfections and blisters that may appear on the glass are not defects, but unique nuances that indicate the craft process of blowing glass. All glasses are lead free, respecting the environment.*

**MADEIRA. WOOD.**

Conhecida como a mais versátil do mundo, a madeira Teca possui grande resistência a ambientes hostis, como água, sol e cupins. Esta madeira nobre, quando utilizada juntamente com o aço inox da Riva, traz um toque final de design, elegância e sofisticação.

*Teca wood has huge resistance to sun light, water and termites. Because of this, it is called the most versatile wood in the world and Riva uses it with Stainless Steel to give a final touch of design, elegance and sophistication.*

**PORCELANA. PORCELAIN.**

A porcelana dos rechauds e refratários Riva são resistentes a altas e baixas temperaturas. Podem ser usadas no freezer ou em fornos convencionais e microondas. É recomendável evitar variações bruscas de temperatura, pois o choque térmico pode causar quebra. Não deve ser utilizada em forno preaquecido, nem exposta diretamente à chama do fogão elétrico, aquecedor ou grelha.

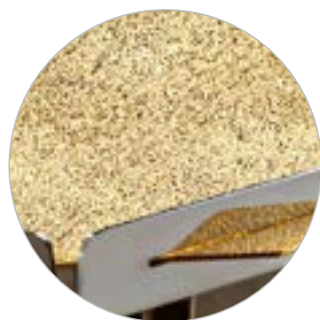

*The porcelain of Riva rechauds and refractories are resistant to high and low temperatures and can be used in freezer or microwave and conventional ovens. It is recommended to avoid quick changes in temperature, because the thermal shock can cause breakage. Do not use in the preheated oven or expose the refractory directly to the hob, grill or heater.*

ACQUA

Inspirado pela beleza pura dos reflexos produzidos pela água, a sua importância na vida humana e nos processos dos objetos desenvolvidos pela Riva.

*Inspired by the pure beauty of reflections produced by water, its importance in human life and in the processes of objects developed by Riva.*

CRAQUELE

Textura formada por pequenas fendas que evidenciam o brilho da matéria-prima Riva e valorizam os banhos em prata e ouro 24K.

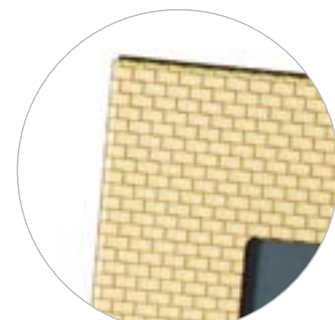

*Texture formed by small slits that highlight the shine of the Riva raw material and enhance the silver and 24K gold baths.*

NOCC

Em cada batida o artesão deixa no metal a sua marca. Nocc surge da arte de moldar metais, a união do processo artesanal com o luxo do ouro 24K.

*With each beat, the craftsman leaves his mark on the metal. Nocc comes from the art of molding metals, the union of the artisanal process with the luxury of 24K gold.*

SAREZZO

Minimalista e luxuosa. Concebida através de um conjunto de quadriculados, que adicionam um toque moderno aos objetos Riva.

*Minimalist and luxurious. Conceived through a set of grids, which add a modern touch to Riva objects.*

**CAIXA DE PRESENTE. GIFT BOX.**

Os objetos neste catálogo com a indicação do símbolo acima são embalados em caixas especiais, perfeitas para presentear.

*The objects in this catalog with the indication of the symbol above are packed in special boxes, perfect for gift giving.*

## COMO USAR. HOW TO USE.

A utilização do Rivacream é bem simples. Recomenda-se que o produto seja espalhado sobre a peça, deixe agir e antes que o produto comece a secar, retire o excesso com o auxílio de uma flanela macia polindo de leve para dar brilho. O produto em contato com a superfície é suficiente para eliminar manchas.

*Cleaning using Rivacream is quite simple. We recommend to spread the product over the object, let react and before the product begins to dry, remove the excess with the aid of a soft flannel, buffing lightly to shine. The product in contact with the surface is enough to remove stains.*

## CUIDADOS. CARE.

Para manter os objetos da Riva sempre impecáveis, é recomendado lavá-los com água morna e secá-los imediatamente usando uma flanela macia. Não utilize esponjas ou palhas de aço. Não mergulhe as peças na água ou deixe sobras de alimentos por um período longo, pois isto pode resultar em manchas e danos às peças. Os objetos não devem ser lavados em máquinas de lavar louças.

*To keep our Riva products like new for a long time, wash them with warm water and dry immediately using a soft cloth. Do not use sponges or steel wool. Do not soak them in water or leave food scraps for a long time as this may cause staining and damage the pieces. The objects should not be washed in the dishwasher.*

DESIGNED AND MADE IN BRAZIL

### COLEÇÃO PEDRAS BRASILEIRAS. BRAZILIAN STONES COLLECTION.

O Brasil é um país rico em pedras preciosas. A coleção Brazilian Stones ousa com a beleza e o brilho das pedras nacionais para conceber objetos esplêndidos. Essa fusão se destaca pela sofisticação do metal Riva com a vivacidade das pedras ametista, citrino e pirita. As pedras Riva são todas brasileiras e naturais. Possuem diferentes tamanhos, formas e tonalidades. São selecionadas a dedo para adornar cada objeto.

*The Brazil is a country rich in precious stones. The Brazilian Stones Collection abuses the beauty and brilliance of stones to design splendid objects. This fusion stands out for the sophistication of Riva metal with the liveliness of amethyst, citrine and pyrite stones. Riva stones are all Brazilian and natural. They have different sizes, shapes and shades. They are hand-selected to adorn each object.*

### COLEÇÃO LABIRINTO. LABIRINTO COLLECTION.

Coleção criada por Rubens Simões e desenvolvida pelo Studio Riva, concebida com puro DNA Riva, pioneira em mesclar metal e vidro. Expõem a delicadeza, brilho e "contornos" do fio maciço de aço inox  $\varnothing$  8mm. A fluidez da sequência de dobras em ângulos retos do fio metálico acaba criando encaixes perfeitos para o vidro.

*Collection created by Rubens Simões and developed by Studio Riva, conceived with pure Riva DNA, a pioneer in mixing metal and glass. Demonstrates the delicacy, shine and "contours" of solid stainless steel wire  $\varnothing$  8 mm. The fluidity of the sequence of bends at right angles of the metallic wire creates perfect fits for the glass.*

**COLEÇÃO FIORI. FIORI COLLECTION.**

Na contra mão da rigidez do aço inox, a Riva prova que esse material pode ser moldável. O conceito da Coleção Fiori é provocar a maleabilidade do aço ao extremo, até o ponto de quase ruptura do metal. Os artesãos realizam as dobras uma a uma, desafiando a força do aço, uma execução de dificuldade extrema. Para quem olha de longe, a dobra parece suave, mas no toque sente-se o peso e a rigidez do inox se opondo às dobras e aos sulcos profundos. Tudo isso com brilho e fluidez... a Riva sendo Riva.

*Contrary to the rigidity of stainless steel, Riva proves that this material can be molded. The concept of the Fiori Collection is to provoke the malleability of steel to the extreme, to the point of almost breaking the metal. The artisans perform the bends one by one, defying the strength of steel, an execution of extreme difficulty. For those who look at it from afar, the fold appears smooth, but on touch, you feel the weight and rigidity of the stainless steel opposing the folds and deep grooves. All this with brightness and fluidity... Riva being Riva.*

### COLEÇÃO SAVA. SAVA COLLECTION.

Com um desenho que tem como base o losango, os objetos da coleção são fabricados de forma artesanal e surgem de uma preocupação ecológica: a reciclagem de materiais. Pedacos resultantes das alças de bules e bandejas deram origem aos itens hi-tech da Coleção Sava, a primeira 100% reciclada da Riva.

*With a design based on the diamond, the objects in the collection are handcrafted and arise from an ecological concern: the recycling of materials. Pieces resulting from the handles of teapots and trays gave rise to the hi-tech items of the Sava Collection, the first 100% recycled by Riva.*

COLEÇÃO ORIGAMI. ORIGAMI COLLECTION.

A simplicidade, precisão e harmonia presentes na cultura japonesa serviram de inspiração para a Coleção Origami. Com design geométrico, a coleção valoriza as dobras bem definidas no metal, o que traz uma alusão aos origamis.

The simplicity, precision and harmony present in Japanese culture inspired the Origami Collection. With a geometric design, the collection emphasizes the well-defined folds in the metal, which alludes to origami.

## COLEÇÃO NOCC. NOCC COLLECTION.

A arte de moldar objetos. Em cada batida o artesão deixa no metal a sua marca, através da sua força, criando formas e arte. Sua ferramenta, o martelo, é uma das mais primitivas confeccionadas pelo homem. Inspirada nesta arte de moldar metais, a Riva criou a Coleção Nocc. Os detalhes dos objetos remetem à produção artesanal aliada ao luxo do ouro 24k.

*The art of shaping objects. In every beat the craftsman marks the metal through his strength, creating shapes and art. His tool, the hammer, is one of the most primitive made by human. Inspired by the art of shaping objects, Riva created the Nocc Collection. The details of the objects refer to the craft production combined with the luxury of 24k gold.*

## COLEÇÃO EBOLI. EBOLI COLLECTION.

A coleção de potes herméticos Eboli impedem de forma perfeita a entrada e saída de ar enquanto fechados. A tecnologia de vedação bloqueia a passagem do ar do ambiente para dentro do recipiente, por isso conservam melhor as características dos alimentos. Utilize-os para guardar açúcar, amendoim, biscoitos, castanhas, café, macarrão ou o que preferir manter fresco.

The collection of Eboli airtight jars perfectly prevent air from entering and exiting while closed. The sealing technology blocks the passage of air from the environment into the container, therefore better preserving the characteristics of the food. Use them to store sugar, peanuts, cookies, nuts, coffee, pasta or whatever you prefer to keep fresh.

ESPECIALISTA EM DESIGN, ESPECIALISTA EM *queijo brie!*  
 DESIGN SPECIALIST, BRIE CHEESE EXPERT.

O Rechaud Brie foi desenvolvido com a tecnologia do disco de alumínio difusor de calor, que aquece o queijo uniformemente, sem que escorra pelas bordas.

The Rechaud Brie was developed with the technology of the aluminum heat diffuser disc, which heats the cheese evenly, without running down the edges.

**QUALIDADE RIVA. RIVA QUALITY.**

O sistema térmico dos Food Containers da Riva foi desenvolvido em nossas próprias oficinas e é semelhante ao das garrafas térmicas: com duas paredes, uma interna e outra externa. Entre as camadas há um isolamento especial que mantém o alimento quente por um longo tempo.

*The thermic system of Riva's Food Container was developed inside our workshops and it is similar to a thermal bottle: with two walls, one inside and another one outside. Between them there is a special insulating that keeps the food warm for a long time.*

## SET 12

### 12 SET

A Riva disponibiliza itens selecionados que podem ser adquiridos em caixas contendo 12 unidades. Esse formato de venda preserva o alto design e a funcionalidade dos objetos da marca, porém proporciona mais economia ao consumidor, visto que nesta negociação o custo de cada unidade diminui. Os Sets de 12 não acompanham embalagens individuais, são comercializados em uma única embalagem, envoltos apenas em plástico bolha. Além do custo-benefício, esta opção permite uma maior liberdade na composição de objetos para a venda em lojas ou para a montagem de serviços em hotéis e restaurantes. Confira as peças selecionadas nesta modalidade. Seu negócio merece objetos com design único, impecáveis e elegantes.

*Riva is offering selected items that can be purchased in boxes with 12 units. This format preserves the high design and functionality of the objects, but provides more savings to the consumer, since in this negotiation the cost of each unit decreases. Sets of 12 do not come in individual packs, they are sold in a single package, only in bubble wrap. In addition to cost-benefit, this option allows greater freedom in the composition of objects for sale in stores or for the assembly of services in hotels and restaurants. Check out the pieces selected in this model. Your business deserves unique, clean and stylish objects.*
